This Week at ASC X9 - April 12, 2021

This newsletter is sent out each week and includes scheduled meetings for the week along with all open ballots, results of ballots that closed in the prior week and important notices. Please let us know if you have any comments or suggestions.

Notices: Due to the pandemic, staff is still working from home so email is the best way to communicate. Until further notice, all X9 meetings are by WebEx or a similar web based conferencing system.

News From Roy DeCicco, Chair of the X9 Board of Directors

I want to let everyone know that I will be retiring from JP Morgan at the end of May and stepping down from my role as Chair of the ASC X9 Board at that time.

Chairing the ASC X9 Board and working with all of you has been an honor and privilege. X9 is the respected standards development organization it is today because of the knowledge, expertise and passion that you bring to every X9 initiative. Thank you for providing me with the opportunity to chair the Board for the last 12 years. I will forever value the professional relationships we have developed over the years. I will work closely with Steve Stevens and Corby Dear to transition the Chair role to Corby on an interim basis until the current election process for the Chair position is completed.

I wish everyone success in all your future endeavors. Roy

I want to thank Roy for his 12 years of service to X9 and say we will miss your

leadership and enthusiasm for the work of X9. I will post more over the next few weeks. Steve

New X9 Notices:

We have a number of new X9 notices, including a new webinar on privacy and requests for subject matter experts, listed at the bottom of this newsletter. Please sign up if you are interested.

How to See All your Meetings:

Looking for an easy way to see all of the meetings for the X9 groups that you participate in? Use the "My Calendar" feature to see all of your upcoming meetings at a glance. After logging into the X9 Member Workspace, click on the drop-down that says "My Groups" and then select the link that says "My Calendar". If you need assistance with using this feature please contact X9 staff at admin@x9.org

X9 or United States Standards Meetings

Recently Published X9 Standards and Documents

- **X9.124-5-2021 Format Preserving Encryption – Part 5 Format-preserving Feistel-based Mode FF3.1** has been published and is now available on the ANSI webstore at this [URL](#)
- **ANSI X9.6-2020 CUSIP standard** has been published and is now available on the ANSI webstore <https://webstore.ansi.org/Standards/ASCX9/ANSIX92020>.
- **X9.142-2020 Public Key Cryptography: The Elliptic Curve Digital Signature Algorithm (ECDSA)**. Eligible X9 members can download a free copy [here](#). All others can purchase a copy on the ANSI store at this [URL](#).
- **X9.138-2020 Distributed Ledger Technologies Terminology**. X9 provides this standard at no charge. You can download a copy from the X9 Website at this [URL](#). It is also available for free on the ANSI store at this [URL](#).
- **X9.124-1-2020 Symmetric Key Cryptography for the Financial Services Industry Format Preserving Encryption – Part 1: Definitions and Mode**. Eligible X9 members can download a free copy [here](#). All others can purchase a copy on the ANSI store at this [URL](#). Note: ANSI will make it available shortly.
- **ANSI X9.100-181-2014 (R2021) TIFF Image Format for Image Exchange**. Has now been published and is available now on the ANSI Webstore at this [URL](#)

New X9/ISO Notices

The project(s) listed below are seeking members. Contact staff if you would like to join a project or would like more information. ISO work requires a Category "A" membership.

- **ASC X9 Webinar: Modern Approach to Privacy Assessments** - X9 will be hosting a webinar on Thursday, April 29th entitled Modern Approach to Privacy Assessments. This webinar will be presented by fellow X9 member Lisa McKee and Michael Anderson of Compliance Point. To learn more about this webinar and to register visit: <https://x9.org/asc-x9-webinar-modern-approach-to-privacy-assessments/>.
- **X9.146 Quantum-Safe TLS Handshake Extension**- X9F5 is issuing a call for participants for the [X9.146 Quantum-Safe TLS Handshake Extension](#) standard. The proposed standard will define how to use the new X.509 alternate signature extension during the handshake phase of the TLS protocol without altering the current TLS standard. The proposed TLS extension will be digital signature algorithm agnostic, allowing a user to authenticate during a TLS handshake with any algorithm and key size needed. At the users discretion, the proposed TLS extension will allow either or both of a certificates two public keys to be considered in the handshake authentication phase of the TLS protocol. If you would like to participate in the development of this standard please email Lindsay Conley at Lindsay.Conley@x9.org. **Please submit your request for participation by April 21, 2021.**
- **New Industry Forum for Financial Data Integration and Harmonization** - The ballot for this new industry forum has passed. We will publish more information shortly on the first meeting of the forum. Please contact staff if you have any questions or want to join.
- **US TAG to TC322:** The US TAG to TC322 Sustainable Finance is looking for additional participants. The TAG meets on the first Thursday of each month and is led by Brian Colantropo from Bloomberg. TC322 looks at standardization in the field of sustainable finance to integrate sustainability considerations including environmental, social and governance practices in the financing of economic activities. The TAG is open to all X9 Category A members..
