## This Week at ASC X9 - June 14, 2021

This newsletter is sent out each week and includes scheduled meetings for the week along with all open ballots, results of ballots that closed in the prior week and important notices. Please let us know if you have any comments or suggestions.

### **Weekly Briefing:**

#### **X9 Office Reopening**

X9 will reopen our office on July 7, 2022. We closed down March of 2020 and I want to thank the staff and our members for their effort to keep the work of X9 on schedule through the pandemic. For now, staff is working from home so email is the best way to communicate. After July 7, you can email or call the office number. If you would like to schedule a meeting in our conference room, please contact staff.

#### **Invoice Issues for Fiscal Year 2022**

All invoices for fiscal year 2022 have been sent. If you did not receive an invoice, please contact staff at [admin@x9.org](mailto:admin@x9.org). Thank you.

#### **How to See All your Meetings:**

Looking for an easy way to see all of the meetings for the X9 groups that you participate in? Use the "My Calendar" feature to see all of your upcoming meetings at a glance. After logging into the X9 Member Workspace, click on the drop-down that says "My Groups" and then select the link that says "My Calendar". If you need assistance with using this feature please contact X9 staff at [admin@x9.org](mailto:admin@x9.org)

## *Recently Published X9 Standards and Documents*

- **X9.143-2021 Interoperable Secure Key Exchange Key Block Specification for Symmetric Algorithms**: This document describes a method consistent with the requirements of ANSI X9.24 Retail Financial Services Symmetric Key Management Part 1 for the secure exchange of keys between SCDs that share a symmetric key to wrap keys and other relevant data. This could be host to host or host to transaction-originating SCD. This method may also be used for the storage of keys under a symmetric key. Interoperability may be less of a factor when storing keys for use with a given implementation. The symmetric key used for storage need not be shared when using this method for key storage. This Standard is now available on ANSI Webstore at this [URL](#)
- **X9.100-110-2021 Document Imaging Compatibility**: The intent of this standard is to establish the specific location for the convenience amount (the value of the check expressed in numbers) and to standardize the background design for essential data fields (areas of interest), including the convenience amount rectangle and the MICR clear area. This Standard is now available on ANSI Webstore at this [URL](#)
- **X9.124-5-2021 Format Preserving Encryption – Part 5 Format-preserving Feistel-based Mode FF3.1** has been published and is now available on the ANSI webstore at this [URL](#)

## New X9/ISO Notices

The project(s) listed below are seeking members. Contact staff if you would like to join a project or would like more information. ISO work requires a Category "A" membership.

- **New Industry Forum for Financial Data Integration and Harmonization** - The ballot for this new industry forum has passed. We will publish more information shortly on the first meeting of the forum. Please contact staff if you have any questions or want to join.
