This Week at ASC X9 - May 9, 2022

This newsletter is sent out each week and includes scheduled meetings for a two week period along with all open ballots, results of ballots that closed in the prior week and important notices. Please let us know if you have any comments or suggestions. Note: X9's offices are now open and staffed during business hours.

Weekly Briefing:

Hybrid Meetings

As of April 1, 2022, X9 transitioned to a hybrid meeting format that includes both in-person and conference calls. You can schedule a hybrid meeting now. The X9 conference room in Annapolis is also available. Contact Lindsay to schedule an event. This has been a long two years and we appreciate the support and patience of our members.

ASC X9 ISO 20022 Remittance Market Practice Guide

The X9 ISO 20022 Market Practice Industry Forum has published a new document called the ISO 20022 Remittance Market Practice Guide. This guide provides information on the content of remittance information for business-to-business payments to encourage payers and payees to use consistent data regardless of the payment type. The guidance includes detailed information and real-world examples to assist with the implementation of ISO 20022 and simplify integration into accounts payable (AP) and accounts receivable (AR) systems. It is free and can be

downloaded at <https://x9.org/iso-20022-remittance-market-practices-guide/>.
You can also view an X9 video about the guide at <https://www.youtube.com/watch?v=YcKNjrEqzyl>.

X9 has a YouTube Channel

X9 now has a YouTube Channel! Please visit our channel at <https://www.youtube.com/channel/UCuejhkf5KR9f5BA2bbvQ7Dg>. There are two videos on the channel at present and we hope to have more soon. Please share the videos with others that might be interested and on social media. Don't forget to "like" the videos and to subscribe to our X9 channel.

We are working to develop videos to highlight the work of X9. If any X9 group would like to get more information on creating a video please contact Steve using the admin@x9.org email address. The goal is to have a 2-3 minute video for our major groups. We will also consider creating a video for some press releases if we think it will help to spread the information.

Update: Our videos have now been viewed 111 times. Thanks for your support.

Your Vote Matters - An X9F Ballot Still Needs Vote

X9 Procedures require that at least 50% of the eligible members for a ballot cast a vote before the ballot can close and be valid. A vote to "Abstain" is consider a vote for the purpose of reaching the 50% requirement. Voting to "Abstain" carries no negative ramifications. X9 is having trouble closing some subcommittee ballots because not enough people are voting. Please remember that members eligible to vote have an obligation to vote even if the vote is to "Abstain". Also, our system will only let you vote on ballots you are eligible to vote on. You can't make a mistake. Your help in this matter is appreciated.

X9F ballot [X9F/22 LB #2 Election of X9F Vice Chair](#); needs additional votes before the ballot can close. The ballot has been reopened several times now. If you are a member of X9F, please vote on this ballot even if you vote to abstain. There is only one person running for the position. The link is listed below under the X9F ballots. Thank you.

Ideas for an X9 Webinar

We are always looking for good topics for an X9 webinar. If you have a subject you would like to get more information on or even better, a subject you would like to present on, please contact a staff member.

X9 or United States Standards Meetings

5/9/22 – Monday

- None

5/10/22 – Tuesday

- [Industry Forum for Financial Data Harmonization Meeting](#): 10:00am - 11:00am

Recently Published X9 Standards and Documents

Nothing new this week.

[New X9/ISO Notices](#)

The project(s) listed below are seeking members. Contact staff if you would like to join a project or would like more information. ISO work requires a Category "A" membership.

Call for Participants: X9.24-4 Retail Financial Services Project

The X9F6 Working Group develops standards used in retail financial services to support authentication of users, cards, PINs, and security evaluations of security hardware and so on.

A new standard is in its early stages, and we are in need of industry experts to help complete standard. The new standard is X9.24-4 Retail Financial Services Symmetric Key Management Part 4: Host-to-Host Key Management using Unique Key Per Transaction (UKPT). This shall address the security concerns and key management requirements for information transferred between different hosting entities processing transactions between themselves.

X9F6 workgroup is issuing a Call for Participants to help ensure we have a good sampling of industry experts to participate in the X9.24-4 project. If you would like to participate in this workgroup please reply directly to Lindsay.Conley@x9.org (please do not reply all). Please submit your intention to participate by May 8th, 2022.
