

ASC X9 Inc. Global Financial Standards

ASC X9 – Charter

ASC X9 is accredited by ANSI to develop and maintain voluntary consensus standards for the financial services industry. Our development environment has the following characteristics:

01

Open

The development process is open to any party having an interest in a standard under development.

Transparent

All development activities are fair, public and documented for all members to see.

02

03

Without Dominance

No special interest group may exert dominance over the development process.

ASC X9 – Scope of Work

ASC X9 – U.S. Standards Subcommittees

X9F - Data & Information Security

The X9F subcommittee develops standards with the potential to reduce financial data security risk and vulnerability. Also, home of the quantum risk and AI work.

X9D - Securities

The X9D subcommittee develops and maintains standards for the securities industry. These include standards for clearance, settlement, transfer and related processes in the U.S. marketplace. X9D provides input into ISO 20022 securities work efforts.

X9A - Electronic and Emerging Payments

The X9A subcommittee develops and supports standards that are focused on payments, including wholesale, retail, electronic benefits and mobile. (QR Code Payments)

X9B - Financial Services Operations

The X9B subcommittee develops and supports standards for design of all elements of manufacturing, electronic processing and delivery of checks, as well as other paper-based back-office operations, such as legal orders (subpoenas, levies, etc.).

X9C - Corporate Banking

The X9C subcommittee develops and supports standards for treasury, finance, and cash management functions within a corporation and for banking services offered to corporations. X9C also focuses on industry work related to faster payments.

ASC X9

ASC X9 – International ISO Standards

ASC X9 administers the U.S. Technical Advisory Group (TAG) to ISO/TC 68 (Financial services) and its subcommittees SC 2, SC 8, and SC 9. Through this role, X9 represents the United States—casting the U.S. votes—and coordinates U.S. expert participation across ISO working groups. In addition, X9 serves as the secretariat to the ISO 8583 Maintenance Agency (MA).

A

ISO TC68 – FINANCIAL SERVICES

Standardization in the field of banking, securities and other financial services. Includes ISO 20022.

B

ISO TC68/SC9 - Information exchange for financial services

Home of the ISO 20022 and 8583 standards.

C

ISO 8583 MANAGEMENT AGENCY SECRETARIAT

The MA controls financial-transaction-card-originated messages that can be interchanged between acquirers and card issuers.

ASC X9 – Technologies

X9 has standards in or is investigating the following areas and technologies (partial list):

- Electronic exchange of check & image data
- Electronic legal orders for financial institutions
- Post Quantum computing risks to FIs
- Electronic benefits (EBT) and mobile payments
- Artificial Intelligence (AI) for financial institutions
- Identifying financial instruments (CUSIP, FIGI)
- Data breach and notification
- Faster payments including QR code payments
- Cryptography (data in motion and at rest)
- Corporate treasury functions
- Payment messages (ISO 8583 & 20022)
- Distributed Ledger/block chain
- X9 Branded PKI Solutions for the Financial Industry

ASC X9 – X9 Financial PKI Solutions

X9 has partnered with DigiCert to produce PKI certificate solutions for the Financial Industry

X9 serves as the governing authority for the X9 Financial PKI. The PKI certificates are tailored specifically to meet the security needs of the financial industry. X9 defined and maintains the Certificate Policy (CP), and approves use cases. DigiCert operates the CA and issues the certificates under X9's CP.

ASC X9 – Industry Alliances

X9 has a formal relationship with the following organizations:

ECCHO®

ISO 20022 Registration Management Group (RMG)
Universal financial industry message scheme

ASC X9 – By the Numbers

- Over 130 American National Standards
- Over 125 international ISO standards
- Over 50 years of experience developing standards for the Financial Services Industry
- Four Industry Forums and numerous study groups
- Experts from five universities

ASC X9 – Membership Categories

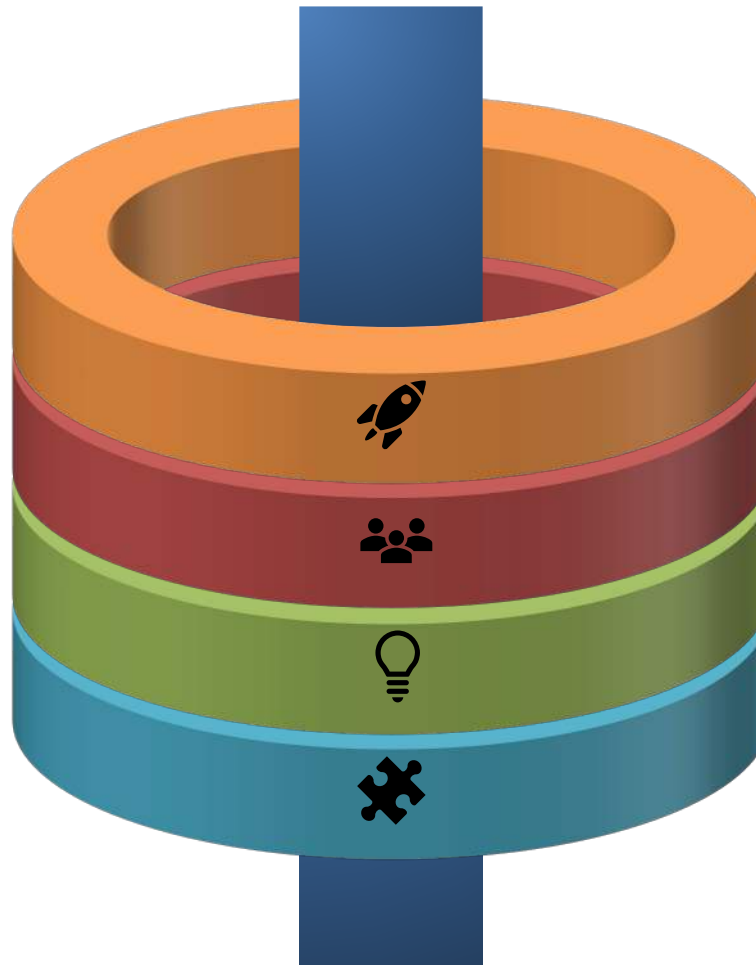

CATEGORY A

\$10,250. Board membership & full voting privileges, and ability to participate on all domestic subcommittees, U.S. TAGs to international ISO TCs and all Working Groups. Access to the entire X9 collection of standards free of charge.

CATEGORY C

\$3150. Same privileges as a category B membership but for companies with gross profits of less than one million dollars with fewer than 100 employees.

CATEGORY B

\$6100. Membership & voting privileges on one domestic subcommittee and ability to participate in all working groups within that subcommittee. Access to the full collection of X9 standards free of charge.

CATEGORY E

\$1630. Membership allows non-voting participation in a single X9 national/U.S. working (domestic) group. Category E members are only provided access to the documents(s) under development in those chosen working group(s).

*Dues as of FY26.

ASC X9 – Please Join Us

X9 is always looking for new members and subject matter experts to work on current and new standards. X9 averages a request for a New Work Item (start work on a new standard) every 8 weeks and we are continuously looking for new areas that need standardizing and experts to help. If you have any questions or interest, please contact a staff member. Remember the old adage, “If you are not at the table, you may be on the menu”. Please consider joining X9.
